Invitation Letter

Georgia, Tbilisi, November 7th, 2025

RE: Invitation letter for Gerard Bota Cabau (Passport Number: PAK338687)

Dear Sir or Madam,

I am writing to confirm that Mr. Gerard Cabau (Passport Number: PAK338687) has been formally invited to participate in a research expedition dedicated to the study of wintering Little Bustards (*Tetrax tetrax*) in Georgia.

This invitation is issued by the Society for Nature Conservation (SABUKO), a non-governmental organization based in Georgia. SABUKO's mission is to protect and conserve biodiversity, promote the appreciation of nature, and encourage the sustainable use of natural resources by the public.

The expedition will take place over a period of 14 days, from 14th to 28th January 2026, in the Dedoplistskaro Municipality, Georgia. During this time, the research team will implement various field methodologies to capture and equip wintering Little Bustards with GPS transmitters as part of an ongoing bird conservation and monitoring program. We are pleased to invite Mr. Gerard Cabau to join our research team and take part in the fieldwork activities, as his expertise and participation are vital for the successful implementation of the study.

All official permits and relevant documentation for the study will be attached to the invitation letter in the Georgian language.

We respectfully request that a single-entry visa be granted to Mr. Gerard Cabau to allow his entry into Georgia for the stated purpose. We trust that this formal letter of support will satisfy the necessary application requirements.

Best regards,

Dr. Irakli Matcharashvili
Director
